

## **Automation Playground CRM (Easypeasy)**

**28-March-2025**

**Created By: Muhammad Arslan Akram**

=====

**Process/Module (Login Page)  
(BUG-LOGIN-001)**

**Bug ID:** BUG-LOGIN-001

**Title:** System allows login with incorrect password

**Environment:**

- App: Automation Playground CRM (Easypeasy)
- Module: Login Page
- Platform: Web (Staging)
- Browser: Chrome (v122),  
Edge
- Date Found: 28-March-  
2024
- Tested By: Muhammad Arslan Akram

**Severity:**

- Critical

**Priority:**

- High

**Status:**

- Open

**Reproducible:**

- Yes - 100% on every attempt

**Steps to Reproduce:**

1. Navigate to the Login Page.
2. Enter a valid email address (e.g., qa.test@demo.com).
3. Enter an incorrect password.
4. Click the Submit button.

**Expected Result:**

- The system should prevent login.
- An error message like 'Invalid email or password' should be displayed.
- The user should remain on the login page.

**Actual Result:**

- User is granted access to the dashboard even with incorrect password.
- No error message is shown.

**Suggested Fix:**

- Ensure proper backend validation of login credentials.
- Implement and test the error handling UI for incorrect password attempts.
- Validate that sessions are not created without correct credentials.
